TDArx, Inc. to Distribute Essential Business Communications Disaster Recovery Tool

WINSTON SALEM, NC - June 25, 2009 – TDArx, Inc. is offering a failsafe disaster recovery system known as PBX Disaster Recovery. The dependable system will provide reliable backup for businesses across the nation.

"When a company's phone system goes down business stops," says Mr. Mike Shuping, President. With PBX Disaster Recovery, business owners can rest easy knowing that their system is protected."

As a universally compatible solution, PBX Disaster Recovery acts as an automatic PBX failover. Should a PBX suddenly go RNA (Ring No Answer) or ATB (All Trunks Busy), a hosted virtual PBX from TDArx, Inc. will take over and route calls to preset emergency numbers. The backup system provides seamless integration so that if a PBX goes down, an organization's customer will never know.

"Companies go to great lengths to back up data, co-locate servers, and otherwise protect the vital parts of doing business, but forget that their PBX is a large part of what connects them with customers," explains Shuping. "PBX disaster recovery is one of the most overlooked aspects of business continuity planning – until it's too late."

As a cost effective solution, industry experts feel that the PBX Disaster Recovery product is an in-demand alternative to high-priced backup phone systems currently being offered.

"We feel it is our duty to offer this product to every business with a phone system," says Shuping. "Our goal is to make sure that each company has a contingency plan for their telecommunications in case of disaster, and we take pride in knowing that our solution can deliver that to them."

ABOUT TDArx, INC..

TDArx, Inc. came into existence when TeleData Services, Inc., a regional leader in business communications, and Arx Technology, Inc., a leading provider of computer and data networking technologies, merged in January 2008. The merger enhances TDArx's expertise in a full line of communication technology, which helps its customers increase their profitability and improve competitive advantage.

TeleData Services, Inc. was founded in 1988 by Mike Shuping

with partners Michael Nester and Larry Halsey. For the past 20 years, TeleData Services has been and is committed to establishing and maintaining a dynamic partnership with every customer. Extensive technology and service experience allowed the TeleData Services, Inc. team to develop an understanding of each customer's unique telecommunications requirements, and to respond to those requirements quickly and effectively.

Founded in 2001 by owner Wesley Walker, Arx Technology had been fulfilling the IT needs of Triad businesses. The company has over 350 customers and eight certified engineers. These professionals have a number of advanced industry certifications including Microsoft, Macintosh, Cisco, Citrix, Novell, and Linux and provides IT-based growth strategies for small and medium businesses. Arx specializes in data, technology and network consulting, security and support.

Today, TDArx is poised to help its customers maximize the return on their investment in communication technology. With TDArx, you can focus on your business, while we focus on your IT! For more information, please contact us at (336) 896-0808 or visit www.tdarx.com.
